

# BELLE CORPORATION EXTENDS HELP TO MT. MAYON ERUPTION VICTIMS

Resilient and used being to natural calamities, Bicolanos, who were evacuated due to the recent eruption of Mt. Mayon, are still displaced from the comforts of their homes. On February 6, 2018, Belle Corporation helped in making their stay in the evacuation centers a bit more comfortable and safe by providing 1,144 water jugs to store clean water. Distribution was made possible in partnership with SM Foundation, Inc. and SM Naga.

Mt. Mayon first erupted in January 13, 2018 and volcanic activities are still ongoing. This affected at least 3,154 families residing in the danger zones.
